

Nature Based Coastal Solutions and Ecological Restoration Symposium: Call for Abstracts

Submission closes January 21, 2024

[TransCoastal Adaptations](#) and the [Nature Based Coastal Solutions Community of Practice](#) are hosting a multi-day event in conjunction with the [Society for Ecological Restoration-Eastern Canada](#) that will include plenary-style talks, posters, and opportunities for field trips.

We welcome submissions for oral and poster presentations. Accepted submissions topics include but are not limited to:

- Applications, challenges, and successes of applied coastal nature-based solution;
- Quantifying co-benefits of nature-based solutions;
- Monitoring of nature-based solutions (planning, methods, and ownership);

We are especially encouraging case studies and reviews of applied nature-based projects.

Abstract submission should include:

- Author and Presenter names and Institutions
- Descriptive abstract title
- Abstracts (maximum 250 words)
- Presentation type preference (oral or poster)
- Key words/topics

For questions or concerns, please contact transcoastaladaptations@smu.ca.
